

## CURRICULUM VITAE - FRANK GEHRY

Raised in Toronto, Canada, Frank Gehry moved with his family to Los Angeles in 1947. Mr. Gehry received his Bachelor of Architecture degree from the University of Southern California in 1954, and he studied City Planning at the Harvard University Graduate School of Design. In subsequent years, Mr. Gehry has built an architectural career that has spanned four decades and produced public and private buildings in America, Europe and Asia. In an article published in The New York Times in November, 1989, noted architecture critic Paul Goldberger wrote that Mr. Gehry's "buildings are powerful essays in primal geometric form and... materials, and from an aesthetic standpoint they are among the most profound and brilliant works of architecture of our time."
