

PROFILES

24 ARTISTS

The Art Economist's editorial team has again selected 24 out of the 300 artists on The List to profile. The following write-ups offer the basic facts, such as birth year and location, education, description (not evaluation) of the work, a selection of collections and exhibitions, gallery representation and latest auction record. The information is meant to inform (not influence) the art collector-enthusiast as he/she pursues acquisitions.
